EXAMINER'S AMENDMENT

1. Claims 1-8, 10-19, 21-30, 32-41, 43, and 44 are pending.
2. Claim 12 has been amended and claims 23-30, 32, and 33 have been canceled to overcome issues under 35 USC 101.
3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Vincent H. Anderson (Reg. No. 54,962) on 03/20/2008.

The application has been amended as follows:

Art Unit: 2137

Claim 12 (Currently Amended) An article comprising a machine-accessible storage medium to provide content to cause one or more electronic systems to:

receive at a device driver a network packet having a corresponding security association (SA);

determine if the packet is an ingress packet or an egress packet;

determine for the packet a key value corresponding to the SA;

if the packet is an ingress packet, hash the key value to determine a location of an entry in an ingress lookup table, and if the packet is an egress packet, hash the key value to determine a location of an entry in an egress lookup table, the entry in the ingress lookup table and the entry in the egress lookup table containing information corresponding to the SA, the ingress lookup table being a separate lookup table from the egress lookup table;

retrieve from the entry an index to a location of the SA in memory; and

retrieve the SA from memory based on the index.

Claims 23-30, 32, 33 (Canceled).

Allowable Subject Matter

4. The following is an examiner's statement of reasons for allowance: The prior art fails to teach determining whether a packet is in ingress or egress packet and hashing a key value for determining a location of an index to a location of a security association in memory of one of an ingress lookup table or an egress lookup table based on whether the packet is an ingress or an egress packet.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Noehring teaches a method of two tables with different methods of processing for inbound and outbound packets.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MICHAEL PYZOCHA whose telephone number is (571)272-3875.
